

Dear Nepal Network Information Center (NNIC),

I am writing this letter to request your assistance in registering a domain name with the ccTLD extension .com.np.

I am aware that as the official registry for domain names under the .np country code, NNIC is responsible for managing and maintaining the registration process for .np domains. Therefore, I would appreciate your guidance in registering my desired domain name.

The domain name that I would like to register is surajshahi.com.np. I have checked its availability and it appears to be currently available for registration.

I understand that there are certain requirements that must be met to register a .com.np domain, such as having a valid Nepalese citizenship certificate or company registration certificate. I would like to confirm that I meet all the necessary requirements and am willing to provide any additional information or documentation that may be required to complete the registration process.

I look forward to hearing back from you regarding the next steps to register the domain name.

Thank you for your time and consideration.

Sincerely,

Suraj shahi
